PROFILE

I am a Computer Engineering student at Lebanese French University (LFU) and a top-performing IT graduate (90-100% average) from CIS College in Erbil. I apply my skills in full-stack development (Laravel), CCNA networking, and AI prompt engineering to build real-world solutions.

Beyond technical work, I have honed my leadership and communication skills by mentoring 11 classmates and working as a copywriting for international remote teams. Trilingual and proactive — ready to bring value to any professional environment.

PROFESSIONAL EXPERIENCE

01/2022 – Present
Remote, Erbil

Web Developer & Designer
Freelancing
- Worked as a freelance web developer and designer for businesses around the world, building and designing their websites from the ground up.
- Helped clients with website security, SEO, and ongoing improvements so their sites stay safe, discoverable, and professional.
- Provide ongoing website maintenance for selected client projects, keeping sites updated, stable, and running smoothly.
- Delivered all work remotely, supporting multiple global clients from 2022 to the present.

01/2024 – 12/2024
Remote work

TOVALA
Volunteer Copywriter. Helping them achive higher click rate...
TOVALA | Volunteer Digital Support & Copywriter (Remote)
- Optimized email marketing campaigns and social media content, successfully increasing click-through rates (CTR) and user engagement.
- Enhanced brand awareness through strategic social media management for an international team.
- Collaborated in a remote work environment, utilizing digital tools to streamline communication and project delivery.
